- Low Density Lipoprotein
- Lung Volume Multi-Calc
- Osmolar Clearance
- Rheumatoid Arthritis Criteria
- SARS CDC Case Definition TreeCalc
- Smallpox Risk Assessment TreeCalc
- Sodium Correction in Hyperglycemia

HOW TO ACCESS

Access EBMcalc from the TDS Health homepage by clicking on the feature box or the EBMcalc link under Resources above the search bar. EBMcalc will open in a pop-up window.

The screenshot shows the TDS Health homepage. At the top left is the TDS Health logo. Below it is a 'Resources' dropdown menu with 'EBMcalc' highlighted. To the right is a search bar with a magnifying glass icon. Below the search bar is a 'Welcome' section with a photo of a nurse and a 'CLICK' button. To the right of the welcome section is an 'EBMcalc' feature box with a description: 'EBMcalc is a unique computerized medical reference and tool set. EBMcalc encompasses a wide array of pertinent medical formulae, clinical criteria sets and decision tree analysis tools used every day by clinicians, medical educators, nurses and health care students.' The feature box is powered by Foundation Internet.

All EBMcalc tools are under Contents in left column. Click to access and navigate the tools.

The screenshot shows the TDS Health website header with the search bar containing 'apgar score'. Below the search bar, the 'Contents' menu is highlighted with an orange arrow. The menu items are: Introduction, Converters, MathCalc, Equations, Clinical Criteria, Decision Trees, Specialties, References, What's New!, and Glossary. To the right of the menu, a section titled 'MedCalc 3000 is now EBMcalc!' is visible, followed by a paragraph of text explaining EBMcalc and its uses.

Or, enter search term and click the search icon. A list of search specific tools will be presented.

The screenshot shows the TDS Health website search results for 'apgar score'. The search bar contains 'apgar score' and the search icon is clicked. Below the search bar, the results are displayed under the heading 'Your result: apgar score'. On the left, there are filter options for 'FILTER BY' (All Titles, Custom Title Set), 'DATE RANGE' (All Years), and 'RELATED TO' (Indications, Diagnosis). On the right, there are tabs for 'All', 'Images', 'Media', 'Alerts', 'News', and 'More'. The 'More' tab is selected, showing a list of results for 'EBMcalc' and 'Apgar Score'. The 'Apgar Score' result is highlighted, showing a list of related terms: EBM, Neurology, Pediatrics, Obstetrics, Women, Nurse, fac_all, fac_med, prognosis, ...

Or access EBMcalc after you get a TDS Health search result. Click the More tab and click on the EBMcalc box to see results.
