

Ganong's Review of Medical Physiology

23rd Ed. ©2010 McGraw Hill Companies, Inc.

Authors/Editors: Kim E. Barrett, Susan M. Barman, Scott Boitano, Heddwyn L. Brooks

ISBN: 0071605673 | 9780071605670

Subjects: Physiology, Basic Sciences, Board Review

Overview:

The field's most complete, current and engagingly written title on medical physiology -- now in full color.

For more than four decades, Ganong's Review of Medical Physiology has been the leader in helping medical students and clinicians understand the fascinating subject of human and mammalian physiology. Concisely covering every important topic without sacrificing depth or readability, Ganong's delivers more detailed, clinically relevant, high-yield information per page than any similar title or review.

Thoroughly updated to reflect the latest research and developments in important areas such as the cellular basis of neurophysiology, *Ganong's Review of Medical Physiology* incorporates examples from clinical medicine throughout the chapters to illustrate important physiologic concepts. Whether you're a student who needs an outstanding review for the USMLE or a physician who wants to keep pace with the ever-changing field of medical physiology, there's no better place to turn than *Ganong's Review of Medical Physiology*.

Here's why this is the best edition of Ganong's ever:

- NEW full-color illustrations -- the authors have worked with an outstanding team of medical illustrators, photographers, educators and students to give you an unmatched collection of illustrations and tables
- NEW boxed clinical cases -- featuring examples of diseases that illustrate important physiological principles
- NEW high-yield, end-of-chapter board review questions
