

Basic & Clinical Pharmacology

11th Ed. ©2009 McGraw Hill Companies, Inc.

Authors/Editors: Bertram G. Katzung, Susan B. Masters, Anthony J. Trevor

ISBN: 0071604057 | 9780071604055

Subjects: Pharmacology, Basic Sciences

Overview:

The most trusted and current pharmacology title in medicine--completely re-designed to make the learning process even more interesting and efficient

Organized to reflect the syllabi in Pharmacology courses, Basic & Clinical Pharmacology covers all the important concepts students need to know about the science of pharmacology and its application to clinical practice. It is acknowledged worldwide as the field's most current, authoritative and comprehensive resource. To be as clinically relevant as possible, it features a strong focus on the choice and use of drugs in patients and the monitoring of their effects.

Coverage that spans every important aspect of medical pharmacology:

- Basic Principles
- Autonomic Drugs
- Cardiovascular-Renal Drugs
- Drugs with Important Actions on Smooth Muscle
- Drugs that Act in the Central Nervous System
- Drugs Used to Treat Diseases of the Blood, Inflammation and Gout
- Endocrine Drugs
- Chemotherapeutic Drugs
- Toxicology

NEW to this edition:

- Full-color presentation, including 300+ illustrations
- Case studies introduce clinical problems in many chapters
- Drug summary tables for key information in comparative context
- Descriptions of important newly released drugs, including new immunopharmacologic agents
- Expanded coverage of general concepts relating to newly discovered receptors, receptor mechanisms, and drug transporters

The American Association of
Colleges of Pharmacy
for inclusion in college
pharmacy libraries

QUOTED

"While most of my students would not find this excellent work "basic", it is an outstanding adjunct to any healthcare professional's library. The chapters are well structured and the information is up to date. The illustrations have improved over the years and are mated well with the text. In all, this is a worthwhile text for anyone studying pharmacology or a useful resource."

-- Robert P Breese, CCEMT, FP-C (Fairport, NY USA)
