Overview:

APhA DrugInfoLine® is a monthly newsletter of interpreted drug and pharmacotherapeutic information designed to keep frontline pharmacists current on the latest trends in the biomedical literature. Each issue includes a "Medication Monitor," a table that summarizes new drug approvals.

It includes regular coverage of these areas:

- Cardiology • Psychiatry • HIV Care • Endocrinology • Pulmonology • Immunizations
- Gastroenterology • Rheumatology • Lipids Management • Infectious Diseases
- Anticoagulation Care • Alternative Medicines • Neurology • Asthma Care
- OTC Medications • Oncology • Diabetes Care • Drug Interactions

This title updates monthly.
