Overview:

The perfect resource for hospital and community-based settings! The 11th Edition is a must-have reference that delivers client focused care planning in a clear and concise manner. And, a handy, removable laminated Nurse's Pocket Minder, featuring the latest NANDA conference nursing diagnoses, is also included.

New and revised diagnoses from 17th NANDA Conference (2007-2008).

Features:

- Easy-to-use, quick-reference format
- Coverage of Concept Mapping
- Icons for interventions—cultural, collaborative, community/home care, diagnostic studies, pediatric/geriatric/lifespan and medications
- Expanded content on the nursing process
- Index with over 400 diseases/disorders
- Actions/interventions uniquely organized by priority with selected rationales

QUOTED

"This edition addresses the changes from a North American NANDA to an International one and includes the new Taxonomy II classifications—more than justifying a new edition"
