

STAT!Ref Value-Added Resources

Resources, tools and services available with every STAT!Ref subscription.

Evidence Alerts

Provides e-mail delivery and access to current EBM information and research from over 130 premier clinical journals. These alerts are pre-rated for clinical relevance and newsworthiness by a panel of practicing physicians through McMaster University. Choose the disciplines within Medicine, Nursing and Rehab and receive daily EBM updates.

STAT!Ref Mobile

STAT!Ref is optimized for delivery on mobile devices. Simply log in as you normally do and most mobile devices will be automatically redirected to the mobile URL. The mobile version has full content available for all STAT!Ref titles and is intended to allow quick searches of these titles while on the go.

HL7 Infobutton

STAT!Ref utilizes the HL7 (Health Level Seven) Infobutton search with electronic health records. This allows doctors, nurses and other healthcare professionals who review a patient's health records quick access to STAT!Ref's resources. It provides value for EMR/EHR systems, but can be integrated into any information system.

Bibliographic Citations

Citations for use in research papers can be generated by using the Bibliographic Citations feature at the bottom of every STAT!Ref document. You can export citations suitable for use in either RefWorks or EndNote.

MedCalc 3000

MedCalc is a collection of over 400 calculations, clinical criteria sets and decision trees in STAT!Ref. With every search you perform, STAT!Ref automatically presents links to relevant EBM tools within MedCalc 3000. Some of the tools included are Clinical Criteria Sets, Decision Trees, Medical Equations, Unit and Dose Converters, Calculations and Equations by Specialty.

AAFP Conditions A to Z

In English and Spanish
STAT!Ref includes this patient information tool that's been written and reviewed by physicians and patient education professionals at the American Academy of Family Physicians (AAFP). Common conditions, treatments and health tips are listed alphabetically or cross-searched in STAT!Ref Online.

Stedman's Medical Dictionary

The most reliable, must-have resource available for healthcare professionals is included in STAT!Ref. This 28th Edition contains more than 107,000 terms and has been thoroughly reviewed and updated by consultants from all the major medical and health science specialties. Highlight a word, click on the Stedman's Definition link for quick definitions without leaving your search.

PubMed & The National Guidelines Clearinghouse

STAT!Ref automatically searches PubMed and The National Guidelines Clearinghouse for matched results. Related concepts are displayed using the Metathesaurus, provided by the National Library of Medicine's Unified Medical Language System.
