

General Guidelines for Citing STAT!Ref

Bibliographic Citations

Citations for use in research papers can be generated by using the Bibliographic Citations feature at the bottom of every STAT!Ref document. You can export citations suitable for use in either RefWorks or EndNote.

The screenshot shows a toolbar with several icons. The 'Download Citations' icon, which is a blue circle with a white download symbol, is highlighted with a red oval. To its right are icons for 'Favorites' (a star), 'Result' (a double-headed arrow), 'Match' (a double-headed arrow), 'Font' (a minus sign and a plus sign), and a search icon. Below the toolbar is a grey dialog box titled 'Bibliographic Citations' with a close button (an 'X' in a blue circle) in the top right corner. Inside the dialog box, there is a text input field with the placeholder text 'Export a citation for this title:'. Below the input field is a dropdown menu currently showing 'Download RefWorks Citation File' and a 'Get Citation' button with a help icon. Below the button, there is a note: 'Or highlight and copy (Ctrl-C) the plain text citation below'. The citation text is: '2009. Jablonski's Dictionary of Medical Acronyms & Abbreviations - 6th Ed. Philadelphia, PA. Saunders/Elsevier. ISBN 1-41605-899-0, ISBN 978-1-4160-5899-1. AMA Manual of Style

For eBooks, the format is the same as the print book plus additional information at the end of the reference indicating the location of the material. For other eBook variations, such as a book chapter, follow the format for the print version and just add the URL and accessed date at the end.

Example:

Author. Title of book. Volume number and volume title [if applicable]. Edition number [if applicable]. Place of publication. Publisher. Year of Publication. URL (<https://online.statref.com/xxxxxxx>). Date of access.
