The STAT!Ref Evidence Alerts System provides e-mail delivery and access to evidence-based medicine (EBM) information from current research of over 130 premier clinical journals. The STAT!Ref Evidence Alerts System works with McMaster University (McMaster PLUS) delivering pre-rated EBM alerts that are qualified, then rated for clinical relevance and newsworthiness by a panel of practicing physicians. STAT!Ref Evidence Alerts offer a range of healthcare disciplines that can be chosen delivering relevant and meaningful EBM information focused on your healthcare interests.

**HOW TO SET UP**

1. Log in to STAT!Ref as you normally do.
2. Click on the My STAT!Ref link.
3. Type your e-mail address in the appropriate box. Click “No, I want to create a My STAT!Ref account.” Click the “OK” button.
4. Complete Account Information. Enter a password. Click “Create Account.”
5. Click the Alerts tab. Select STAT!Ref Evidence Alerts.
6. Fill out the profile. Click the Submit button.
7. Select your disciplines by clicking on the Medicine, Nursing, and/or the Rehab tab. (Disciplines listed on page 2)
8. Log off. You are now registered. Please note, those with IOS devices using Safari will need to turn off the ‘Block Pop-ups’ setting before trying to open an Alert sent via email. Additionally, anyone else that encounters difficulty opening an Alert should make sure to ‘allow pops from this site’in their browser settings.
